Curriculum vitae

Giulio Fernando Schimperna
Department of Mathematics, University of Pavia
Via Ferrata 5, I-27100 Pavia, Italy

October 4, 2019

I. Scientific activity

Current position:

• Full Professor of Mathematical Analysis, Department of Mathematics, University of Pavia (since April, 2018).

Former positions:

• PostDoc at the Department of Mathematics, University of Pavia (since January, 2000 until January, 2001).

• Assistant Professor of Mathematical Analysis, Faculty of Sciences, University of Pavia (since February, 2001 until September, 2006).

• Associate Professor of Mathematical Analysis, Department of Mathematics, University of Pavia (since October, 2006 until March, 2018).

Studies:

• "Liceo Classico" (high school) G. Carducci of Milano (since 1985 until 1990). Bachelor diploma obtained in July 1990 with a mark of 60/60.

• Fellow of Collegio Ghislieri of Pavia (since 1990 until 1995).

• Diploma Course in Mathematics, University of Pavia (since 1990 until 1995). MSc Diploma in Mathematics obtained in January 1995 with a mark of 110/110, *cum laude*. Dissertation: "STUDIO DI UN PROBLEMA DI FRONTIERA LIBERA DI TIPO VORTICE IN SPAZI DI FUNZIONI ANALITICHE", ("Study of a vortex free boundary problem in analytic function spaces"), advisor Prof. Alessandro Torelli.

• PhD in Mathematics, University of Milan (since 1995 until 1999). PhD Diploma in Mathematics obtained in January 2000. Dissertation: "TRANSMISSION PROBLEMS FOR NONLINEAR PARABOLIC SYSTEMS OF PHASE-FIELD TYPE", advisor Prof. Gianni Gilardi.

Awards and prizes:

• Awarded of CNR grant n. 209.01.60 for students of Mathematics.

• Awarded of prize"Vittorio Emanuele Galafassi" for the best diploma thesis in Mathematics at Pavia University in 1994-1995.

Invited talks at workshops or conferences:

• International workshop "Multiscale Problems and Phase Transitions" (WIAS - Berlin, August 29-31, 2001): "EXISTENCE AND ASYMPTOTIC RESULTS FOR SOME NONLINEAR CAHN-HILLIARD-LIKE EQUATIONS".

• National meeting: "Recenti Sviluppi nella Teoria delle Equazioni Differenziali" (Bologna, April 19-20, 2002): "PROBLEMI DI STEFAN RILASSATI PER LA TEMPERATURA ASSOLUTA".

• Scientific meeting of GNFM (Montecatini Terme, February 17-19, 2003): "UN

modello di danneggiamento per materiali elastici".

• PV-MI 2003, Seconda Giornata di Studio Università di Pavia - Politecnico di Milano "Equazioni Differenziali e Calcolo delle Variazioni" (Milano, December 11, 2003): "Attrattore universale per modelli di Penrose-Fife parabolici e parabolici-iperbolici".

• International workshop "Evolution equations: Inverse and Direct Problems" (Cortona, June 21-25, 2004): "Direct and inverse problems for conserved phase field systems with memory".

• International workshop "Inverse and Direct Problems" (Cortona, June 20-24, 2005): "Some results on doubly nonlinear parabolic problems".

• International workshop "Dynamics of Phase Transitions" (Berlin, WIAS, November 30 - December 3, 2005): "Well-posedness and ω-limit sets for some doubly nonlinear parabolic problems".

• International workshop "AIMS' Sixth International Conference on Dynamical Systems, Differential Equations and Applications" (Poitiers, June 25-28, 2006): "Attractors for doubly nonlinear equations".

• International workshop "AIMS' Sixth International Conference on Dynamical Systems, Differential Equations and Applications" (Poitiers, June 25-28, 2006): "On the long time behavior of some singular phase change models".

• International workshop on "Free Boundary Problems" (Chiba, Japan, November 26-30, 2007): "Hyperbolic relaxation of the Cahn-Hilliard equation".

• International workshop "AIMS' Seventh International Conference on Dynamical Systems, Differential Equations and Applications" (Arlington, TX, May 18-21, 2008): "On the long time behavior of some variants of the Cahn-Hilliard equation".

• International workshop "AIMS' Seventh International Conference on Dynamical Systems, Differential Equations and Applications" (Arlington, TX, May 18-21, 2008): "Asymptotic behavior of some singular phase transition systems".

• International workshop "DICOP 08 – Direct, Inverse and Control Problems for PDE's" (Cortona, September 22-26, 2008): "On the Cahn-Hilliard equation with singular potential and dynamic boundary conditions".

• PV-MI 2008, Settima Giornata di Studio Università di Pavia - Politecnico di Milano "Equazioni Differenziali e Calcolo delle Variazioni" (Pavia, November 28, 2008): "Sul modello di phase-field con condizioni al bordo dinamiche".

• International workshop "6th European Conference on Elliptic and Parabolic Problems" (Gaeta, May 25-29, 2009): "On the Cahn-Hilliard model with inertial effects".

• International workshop "6th European Conference on Elliptic and Parabolic Problems" (Gaeta, May 25-29, 2009): "On a phase-field model for two-phase compressible fluids".

• International workshop "AIMS' Eighth International Conference on Dynamical Systems, Differential Equations and Applications" (Dresden, May 25-28, 2010): "Attractors for reaction-diffusion systems in unbounded domains".

• International workshop "AIMS' Eighth International Conference on Dynamical Systems, Differential Equations and Applications" (Dresden, May 25-28, 2010): "A NONISOTHERMAL MODEL FOR NEMATIC LIQUID CRYSTALS".

• International workshop "Dissipative PDEs in Bounded and Unbounded Domains and Related Attractors" (Edinburgh, September 20-24, 2010): "ON A FOURTH ORDER DEGENERATE PARABOLIC EQUATION".

• "Week on liquid crystals" (Prague, October 5-8, 2010): "SOME NONISOTHERMAL MODELS FOR NEMATIC LIQUID CRYSTALS".

• Workshop for the 5th anniversary of the Nečas Centre (Prague, December 17, 2010) "ON SOME DOUBLY NONLINEAR GENERALIZATIONS OF THE CAHN-HILLIARD EQUATION".

• International workshop "INDI2011, Interfaces and Discontinuities in Solids, Liquids and Crystals" (Gargnano, Italy, June 20-23, 2011): "WEAK SOLUTIONS AND SMOOTHING EFFECTS FOR SOME EQUATIONS AND SYSTEMS WITH VERY-FAST DIFFUSION PROPERTIES".

• International conference on "Mathematical Models and Analytical Problems in Special Materials" (Rome, April 16-20, 2012): "ON SOME NONISOTHERMAL MODELS FOR NEMATIC LIQUID CRYSTALS".

• International conference on "Structural Nonlinear Dynamics and Diagnosis – CNSDD 2012" (Marrakech, Morocco, April 30 - May 2, 2012): "ON A CLASS OF NONISOTHERMAL MODELS FOR NEMATIC LIQUID CRYSTALS".

• International workshop "PDEs for multiphase advanced materials" (Cortona, Italy, September 17-21, 2012): "ON SOME CAHN-HILLIARD MODELS WITH NONLINEAR DIFFUSION".

• International workshop "EQUADIFF 13" (Prague, August 26-30, 2013): "A NONISOTHERMAL MODEL FOR TWO-PHASE FLUIDS".

• International workshop "Recent Trends in Classical and Complex Fluids" (Brighton, September 5-7, 2013): "ON A NONISOTHERMAL MODEL FOR TWO-PHASE FLUIDS".

• International workshop "8th EU Conference on Elliptic and Parabolic Problems" (Gaeta, May 26-30, 2014): "A CLASS OF NONISOTHERMAL MODELS FOR TWO-PHASE FLUIDS".

• International workshop "Conference on Partial Differential Equations" (Novacella/Neustift, May 29 - June 1, 2014): "ON A FRACTIONAL CAHN-HILLIARD EQUATION".

• International workshop "Two Days Workshop on LC-Flows" (Pavia, March 24-25, 2014): "ON SOME NONISOTHERMAL MODELS FOR NEMATIC LIQUID CRYSTALS".

• International workshop "RIPE 60 - Rate Independent Processes and Evolution Workshop" (Prague, June 24-26, 2014): "ON A GENERAL CLASS OF DOUBLY NONLINEAR EQUATIONS".

• International workshop "10th AIMS International Conference" (Madrid, July 7-11, 2014): "A SINGULAR HEAT EQUATION WITH DYNAMIC BOUNDARY CONDITIONS".

• International workshop "Conference on Partial Differential Equations" (Munich,

March 25-29, 2015): "Strongly damped wave equation with constraint".

• Indam-ERC Workshop "Special Materials in Complex Systems" (INDAM, Rome, May 18-22, 2015): "On some second order equations with constraint terms".

• International workshop "Infinite-dimensional Dynamics, Dissipative Systems, and Attractors" (Nizhny Novgorod, July 13-17, 2015): "On a fractional Cahn-Hilliard equation".

• International workshop "9th European Conference on Elliptic and Parabolic Problems" (Gaeta, May 23-27, 2016): "On some Cahn-Hilliard models with singular diffusion".

• International workshop "Entropy methods, dissipative systems, and applications" (Erwin Schrödinger Institute, Vienna, June 13-17, 2016): "On some singular variants of the Cahn-Hilliard model".

• International workshop "1st Joint Meeting Brazil Italy in Mathematics" (Rio de Janeiro, August 29 - September 2, 2016): "On the fractional Cahn-Hilliard equation".

• "International Conference on Elliptic and Parabolic Problems" (Gaeta, May 22-26, 2017): "Thermodynamically consistent models for complex fluids".

• International workshop "Implicitly Constituted Materials: Modeling, Analysis and Computing" (Roztoky, July 31 - August 4, 2017): "On a thermodynamically consistent model for two-phase fluids".

• International workshop dedicated to Eduard Feireisl on the occasion of his 60th birthday (Prague, December 18, 2017): "Some results on the functionalized Cahn-Hilliard equation".

• International workshop "SMACS2018 – Special Materials and Complex Systems" (Gargnano, June 18-22, 2018): "On some long-standing questions related to damage models".

• International workshop "The 12th AIMS Conference on Dynamical Systems, Differential Equations and Applications" (Taipei, July 5-9, 2018): "A model for complex fluids with inertial effects".

• International workshop "The 12th AIMS Conference on Dynamical Systems, Differential Equations and Applications" (Taipei, July 5-9, 2018): "On a multi-component model for tumor growth".

• Workshop "Bilbao Workshop on Theoretical Fluid Dynamics" (Bilbao, February 27, 2019): "On some mathematical models for tumor growth".

• International workshop "PDEs for Biology Systems" (Sevilla, April 8-10, 2019): "On some mathematical models for tumor growth".

• International workshop "Recent Advances in Phase-Field Modeling: from Engineering to Biology" (Pavia, May 8-10, 2019): "On a model for damage".

Communications at workshops or conferences:

• International workshop "Phase Change with Convection: Modelling and Validation" (Warsaw, June 24-26, 1999): "Convergence of phase-field equations to the

STEFAN MODEL".

• XVI Congresso UMI (Naples, September 13-18, 1999): "UN PROBLEMA DI PHASE-FIELD CONSERVATO CON MEMORIA".

• International workshop "Phase Transitions and Interfaces in Evolution Equations" (S.ta Margherita Ligure, February 14-18, 2000): "SOME RESULTS ON IRREVERSIBLE PHASE CHANGE MODELS".

• National meeting "Equazioni Integrodifferenziali alle Derivate Parziali e Applicazioni" (Salò, June 23-24, 2000): "ALCUNI RISULTATI SUL MODELLO DI PHASE FIELD CONSERVATO CON MEMORIA".

• National workshop "Simmetrie, Forme Geometriche, Evoluzione, e Memoria nelle Equazioni alle Derivate Parziali" (Taormina, February 7-10, 2001): "MODELLI DI CAMPO DI FASE CONSERVATIVI CON MEMORIA".

• National workshop "Problemi a Frontiera Libera" (Montecatini, June 14-15, 2001): "ANALISI DI UN MODELLO DI SEPARAZIONE DI FASE IN LEGHE BINARIE".

• National workshop "Modelli Matematici e Problemi Analitici per Materiali Speciali" (Cortona, June 25-29, 2001): "TRANSIZIONI DI FASE IRREVERSIBILI: MODELLIZZAZIONE E RISULTATI MATEMATICI".

• International workshop "Fourth European Conference on Elliptic and Parabolic Problems - Theory and Applications" (Gaeta, September 24-28, 2001): "A PHASE CHANGE SYSTEM IN BINARY ALLOYS".

• International workshop "Free Boundary Problems: Theory and Applications" (Trento, June 5-8, 2002): "LOCAL SOLUTION TO FRÉMOND'S MODEL FOR DAMAGE IN ELASTIC MATERIALS" (poster session).

• National workshop "Modelli Matematici e Problemi Analitici per Materiali Speciali" (Salò, July 4-6, 2002): "LIMITI SINGOLARI DI UN MODELLO DI PENROSE-FIFE CON MEMORIA".

• National workshop "Free Boundary Problems in the Applied Sciences" (Montecatini Terme, April 10-11, 2003): "CONTINUOUS DEPENDENCE AND ASYMPTOTIC ANALYSIS FOR SOME SYSTEMS OF PENROSE-FIFE TYPE".

• National workshop "Materiali Speciali e Memorie: Problemi Modellistici e Analitici" (Salò, July 3-5, 2003): "ALCUNI RISULTATI SULL'EQUAZIONE DI CAHN-HILLIARD CON MOBILITÀ NON COSTANTE".

• XVII Congresso UMI (Milan, September 8-13, 2003): "ESISTENZA DELL'ATTRATTORE UNIVERSALE PER ALCUNI MODELLI DI PENROSE-FIFE".

• International conference "FBP 2004 – Free Boundary Problems in Biomathematics, Multiscaling, Infinite-Dimensional Dynamical Systems" (Montecatini, June 10-12, 2004): "NONISOTHERMAL PHASE SEPARATION MODELS BASED ON A MICROFORCE BALANCE".

• "EVEQ 2004 – Sixth International Summer School on Evolution Equations (Praga, July 12-16, 2004): "SOME RESULTS ON PDE'S SYSTEMS FOR DAMAGING PHENOMENA".

• International workshop "Dissipative models in phase transitions" (Cortona, Septem-

ber 5-11, 2004): "Long time behavior of Caginalp's model with singular potential".

• National workshop "Modellizzazione matematica ed analisi dei problemi a frontiera libera" (Montecatini, September 29 - October 1, 2005): "On a nonlocal parabolic-hyperbolic phase field model".

• International workshop "Mathematical Models and Analytical Problems for Special Materials" (Salò, July 13-15, 2006): "Attractors for Cahn-Hilliard equations with noncostant mobility".

• XVIII Congresso UMI (Bari, September 24-29, 2007): "Rilassamento iperbolico dell'equazione di Cahn-Hilliard".

• International workshop on "Phase-field Models in Fluid Mechanics" (Regensburg, February 14-16, 2011): "On a Cahn-Hilliard model with nonlinear diffusion".

Talks given at Universities or Research institutes:

• Dipartimento di Matematica, Università di Trento (April 3, 2000): "Alcuni modelli di transizione di fase".

• IMATI-CNR, Pavia (December 7, 2000): "Modelli di separazione di fase in solidi soggetti a forze termoelastiche".

• Weierstrass Institute for Applied Analysis and Stochastics, Berlin (December 13, 2000): "Some results on phase separation models with thermoelastic effects".

• Mathematical Institute of the Academy of Sciences of the Czech Republic, Prague (March 9, 2004): "Global attractors for singular phase change systems of Penrose - Fife type".

• Département Mathématique, Université Paris Sud 11 (September 7, 2006): "Attractors for a class of doubly nonlinear equations".

• Mathematical Institute of the Charles University in Prague, Nečas Seminar on Continuum Mechanics (October 4, 2010): "On a class of fourth order degenerate parabolic equations".

• University of Kobe, Kobe Analysis Seminar (May 25, 2012): "Cahn-Hilliard systems with nonlinear diffusion".

• Waseda University, Tokyo, Waseda University Analysis Seminar (May 26, 2012): "On a class of nonisothermal models for nematic liquid crystals".

• Xi'an Jiaotong-Liverpool University, Suzhou (March 18, 2016): "On some second order equations with constraint".

• NYU Shanghai (March 24, 2016): "On some second order equations with constraint".

• Fudan University, Shanghai (March 29, 2016): "On the hyperbolic relaxation of the Cahn-Hilliard equation".

• Università di Modena (July 5, 2016): "Alcune equazioni del secondo ordine con termini singolari".

• Università di Catania (June 13, 2019): "ALCUNI RISULTATI SULL'EQUAZIONE DI CAHN-HILLIARD CON DIFFUSIONE NON LINEARE".

PhD Courses or Summer Schools taught outside Pavia:

• University of Modena and Reggio Emilia, Dipartimento di Scienze Fisiche, Informatiche e Matematiche, Summer School "Dissipative Dynamical Systems and Applications", Modena, September 3-7, 2018: course on "Evolution equations with singular nonlinear terms".

• University of Vienna, Fakultät für Mathematik, March 25-29, 2019: PhD course on "Evolutionary equations with singular nonlinear terms".

Research visits:

• Weierstrass Institute for Applied Analysis and Stochastics, Berlin (December 11-17, 2000).

• Mathematical Institute of the Academy of Sciences of the Czech Republic, Prague (March 1 - May 31, 2004; July 18-24, 2005; February 9-12, 2009).

• Université Paris-Sud - Orsay (September 4-8, 2006).

• Université de Poitiers (June 1-14, 2008).

• University of Kobe (May 22 - June 1, 2012; September 22 - October 3, 2014; April 2-10, 2015).

• Fudan University, Shanghai (March 7 - April 6, 2016).

• Tohoku University, Sendai (April 11-21, 2017 and September 9-20, 2018).

• Basque Center for Applied Mathematics, Bilbao (February 25 - March 1, 2019).

Organization of workshops or conferences:

• International workshop "Evolution Problems – in memory of Brunello Terreni" (Rapallo, March 26-27, 2004): member of organizing committee.

• International workshop "Direct and Inverse Problems in Evolution Equations" (Rimini, March 17-19, 2005): member of organizing committee.

• International workshop "Phase Variations 2009" (Pavia, May 21-22, 2009): member of organizing committee.

• International workshop "DIMO2013 – Diffuse Interface Models" (Levico Terme, September 10-13, 2013): member of organizing committee.

• International workshop "Conference on Partial Differential Equations", (Novacella/Neustift, May 29 - June 1, 2014): member of organizing committee.

• "International Conference on Elliptic and Parabolic Problems" (Gaeta, May 22-26, 2017): organizer of a Minisymposium on "Nonlinear PDEs for multiphase materials and complex fluids".

Editorial activity:

• **AIMS Mathematics**: member of Editorial Board;

• **Special volume** "Solvability, Regularity, and Optimal Control of Boundary Value Problems for PDEs. In Honour of Prof. Gianni Gilardi", Springer INdAM Series 22: member of Editorial Board.

IV. Teaching

Teaching activity is reported by year and in reverse chronological order. All the listed courses have been taught at Pavia University.

Academic Year 2018/19:

- "ANALISI MATEMATICA 3", Diploma Course in Mathematics, 9ECTS.
- "MATEMATICA", Diploma Course in Biology, 6ECTS.

Academic Year 2017/18:

- "ANALISI MATEMATICA 3", Diploma Course in Mathematics, 9ECTS.
- "MATEMATICA", Diploma Course in Biology, 6ECTS.

Academic Year 2016/17:

- "VARIATIONAL METHODS FOR EVOLUTION EQUATIONS", PhD course, 16 hours.
- "ANALISI FUNZIONALE", Graduate Course in Mathematics, 9ECTS.
- "MATEMATICA", Diploma Course in Biology, 6ECTS.

Academic Year 2015/16:

- "ANALISI FUNZIONALE", Graduate Course in Mathematics, 9ECTS.
- "MATEMATICA", Diploma Course in Biology, 6ECTS.

Academic Year 2014/15:

- "ANALISI FUNZIONALE", Graduate Course in Mathematics, 9ECTS.
- "MATEMATICA", Diploma Course in Biology, 6ECTS.

Academic Year 2013/14:

- "ANALISI FUNZIONALE", Graduate Course in Mathematics, 9ECTS.
- "MATEMATICA", Diploma Course in Biology, 6ECTS.

Academic Year 2012/13:

- "COMPLEMENTI DI ANALISI MATEMATICA II", Undergraduate Course in Physics, 6ECTS.
- "MATEMATICA", Diploma Course in Biology, 6ECTS.
- "ANALISI FUNZIONALE ED EQUAZIONI DIFFERENZIALI", Graduate Course in Mathematics, 3ECTS.

Academic Year 2011/12:

- "EQUAZIONI DI EVOLUZIONE", Graduate Course in Mathematics, 6ECTS.

• "Matematica", Diploma Course in Biology, 6ECTS.

Academic Year 2010/11:

• "Complementi di Analisi Matematica II", Undergraduate Course in Physics, 6ECTS.
• "Matematica", Diploma Course in Biology, 6ECTS.

Academic Year 2009/10:

• "Equazioni di Evoluzione", Graduate Course in Mathematics, 3ECTS.
• "Complementi di Analisi Matematica di Base", Diploma Course in Physics, 5ECTS.
• "Matematica", Diploma Course in Biology, 6ECTS.

Academic Year 2008/09:

• "Complementi di Analisi Matematica di Base", Diploma Course in Physics, 5ECTS.
• "Istituzioni di Matematiche", Diploma Course in Biology, 5ECTS.

Academic Year 2007/08:

• "Introduzione ai Problemi per Equazioni alle Derivate Parziali", Diploma Course in Mathematics, 5ECTS.
• "Analisi Matematica D", Diploma Course in Mathematics, 3ECTS.
• "Istituzioni di Matematiche", Diploma Course in Biology, 5ECTS.

Academic Year 2006/07:

• "Equazioni Differenziali e Sistemi Dinamici", Diploma Courses in Mathematics and in Physics.
• "Istituzioni di Matematiche", Diploma Course in Biology.

Academic Year 2005/06:

• "Equazioni Differenziali e Sistemi Dinamici" Diploma Courses in Mathematics and in Physics.
• "Istituzioni di Matematiche", Diploma Course in Biology.

Academic Year 2004/05:

• "Equazioni Differenziali e Sistemi Dinamici" (in collaboration with Pierluigi Colli), Diploma Courses in Mathematics and in Physics.
• "Istituzioni di Matematiche", Diploma Course in Biology.

Academic Year 2003/04:

• Exercise course of "Concetti di Analisi Matematica di Base", Diploma

Courses in Mathematics and in Physics.

- "EQUAZIONI DIFFERENZIALI E SISTEMI DINAMICI", Diploma Course in Physics.
- "COMPLEMENTI DI ANALISI MATEMATICA DI BASE" (in collaboration with Daniele Boffi), Diploma Course in Physics.

Academic Year 2002/03:

- "EQUAZIONI DIFFERENZIALI E SISTEMI DINAMICI" (in collaboration with Alessandro Torelli), Diploma Course in Mathematics.
- "EQUAZIONI DIFFERENZIALI E SISTEMI DINAMICI", Diploma Course in Physics.
- "COMPLEMENTI DI ANALISI MATEMATICA DI BASE" (in collaboration with Daniele Boffi), Diploma Course in Physics.

Academic Year 2001/02:

- "STRUMENTI INFORMATICI E MATEMATICI DI BASE" (mathematical part only), Diploma Course in Mathematics.
- "EQUAZIONI DIFFERENZIALI E SISTEMI DINAMICI", Diploma Course in Physics.

Academic Year 2000/01:

- "TEORIA DELLE FUNZIONI", part 2 (in collaboration with Gianni Gilardi), Diploma Course in Mathematics.
- Exams of "ANALISI MATEMATICA II", Diploma Course in Physics.
- Exercise course of "ANALISI MATEMATICA A", Faculty of Engineering.
- Course of "MATEMATICA, FISICA E STATISTICA" (mathematical part only), Diploma Course in Sport Sciences.

Academic Year 1999/2000:

- Exercise course of "ANALISI MATEMATICA 1", Faculty of Engineering.
- Course of "MATEMATICA, FISICA E STATISTICA" (mathematical part only), Diploma Course in Sport Sciences.

Academic Year 1998/99:

- Exercise course of "ANALISI MATEMATICA 1", Faculty of Engineering.
