

UNIVERSITÀ DI PAVIA

Director General's resolution

Titolo VII
Classe 1

English version

The official text is in Italian, which will prevail over the English translation in cases of conflict or omission.

Subject: Change and new terms relating to the public selection of one – level two technologist – category D3 for a period of 36 months, which may be extended, at the Department of Biology and Biotechnology at the University of Pavia providing support for research and administrative activities for the project: Partenariati Estesi PE13 – INF-ACT – research program "Spoke 1: Emerging and Re-Emerging Viruses: antigen production for diagnostics and monitoring" - PNRR – (code 36-2022-d3- tec.infact-bio)

THE DIRECTOR GENERAL

Considering the resolution no. 922/2022, prot. no. 177743 dated 09/11/2022, relating to the public selection of one – level two technologist – category D3 for a period of 36 months, which may be extended, at the Department of Biology and Biotechnology at the University of Pavia providing support for research and administrative activities for the project: Partenariati Estesi PE13 – INF-ACT – research program "Spoke 1: Emerging and Re-Emerging Viruses: antigen production for diagnostics and monitoring" - PNRR – and in particular article 2, relating to the qualification required for admission to the selection;

Considering that among the qualifications required for admission to the selection, the degree L-27 (Chemical sciences and technologies) was indicated, by mere typo error, instead of L-13 (Biological sciences) according to the regulations governed by the Ministerial Decree 270/2004;

CONSIDERING that the deadlines for submitting applications to participate in the selection will expire on 12/12/2022;

WAITING therefore, the need for new deadlines for the selection procedure for above position;

Deemed it necessary to proceed

PROVIDES

Art. 1 – The first paragraph of article 2 of resolution no. 922/2022, prot. no. 177743 dated 09/11/2022, relating to the public selection one – level two technologist – category D3 for a period of 36 months, which may be extended, at the Department of Biology and Biotechnology at the University of Pavia providing support for research and administrative activities for the project: Partenariati Estesi PE13 – INF-ACT – research program "Spoke 1: Emerging and Re-Emerging Viruses: antigen production for diagnostics and monitoring" - PNRR –, published in the Official University Register from 10/11/2022 to 12/12/2022, must be understood as replaced as follows:

For admission to selection, candidates must possess the following requisites, which must be held at the deadline date for the presentation of the admission application and when they take up service:

Qualification: a university degree required in class L-2 Biotechnology or **L-13 Biological Sciences** under the regulations laid down by Ministerial Decree 270/2004 or in class L01 Biotechnology or L12 Biological Sciences following the regulations laid down by Ministerial Decree 509/1999 or a degree in

Biology under the old regulations (before Ministerial Decree 509/1999) or another equivalent qualification following the rules in force.

Art. 2 - For the reasons indicated in the introduction and in article 1 of this provision, the deadlines for applications will expire 30 days from the date of publication of the managerial resolution in the Official University Register.

All the other provisions of the aforementioned resolution no. 922/2022, prot. no. 177743 dated 09/11/2022, and any applications already submitted for participation are also valid.

Pavia, protocol date
