Job Description

Internship: Project Management Optimization

Your challenge

Are you the enthusiastic, talented intern we're looking for?

In our current business environment, many process changes and related IT tools are being implemented at a high pace. To make sure we capture the full potential of our effort, we welcome a re-assessment of our current ways of working when implementing these changes operationally.

Your assignment

The assignment focuses on evaluating the success rate of an existing program on acceptance and utilization of processes and IT tooling in the impacted employee population.

The objective of the assignment is to develop an aftercare model that ensures sustainable change in ways of working, as well as structural interaction between organization units going forward.

The success can be measured when the processes become self-supporting in daily operations without intervention from Commercial Operations Supply Excellence teams. This assignment will be supported by a Business Process Expert.

Your team

You will be part of the Supply Excellence team within Commercial Operations in [Philips Healthcare](#). Commercial Operations is organized globally and has offices in North America, Latin America, Asia Pacific, and China and in Europe. In the area of order fulfillment, Business Centers support all of the Healthcare Businesses and Markets.

Second, global functions like Supply Excellence drive and/or support sector Healthcare activities e.g. like Physical Distribution and 3rd Party Purchasing, and drive improvements in the Healthcare supply chain.

Our offer

- International complex environment with touch points globally
- Visibility on the global deployment of an IT Platform supporting a key process
- Exposure to many aspects of change management
- Challenge your project management skills and your improvement methodology
- It can be discussed to make this assignment suitable to do your graduation
- Duration between 3 months (excluding implementation of proposed improvements) or 6 months (including).
- We prefer students able to start per January 2013

Internship conditions:

1. Students on work placement or final-year study assignment are paid a work placement or final-year study assignment

allowance.

2. A student on a work placement or final-year study assignment is paid an allowance towards rented accommodation, depending on his/her situation. This will be determined setting up the Intern Contract.
3. A student on work placement or final-year study assignment who can prove that he/she is not entitled to a student card for public transport (OV-studentenkaart) is paid an allowance to cover the cost of travel between home and the place of work in accordance with the Conditions of Employment Guideline.
4. The student is entitled to paid leave on the basis of 1 day per month.
5. Opportunity to buy Philips products with tax benefit (Philips MyShop)

Your Profile

To be successful in this internship we are looking for you:

- Currently studying towards your **Bachelor HBO (BBA/BICT)** in next studies:
 - o Business Informatics
 - o Management Sciences
 - o Software Technology
- Be fluent in oral and written English (additional Dutch would be preferred)
- Showing next Competences: IT Skills & Application Insights
- Having Project Management affinity
- Are able in Global thinking
- Have a Open mind, inquisitive
- Possessing Influencing skills
- Are Outgoing and sincere personality

If you recognize yourself in this profile and would like to take this challenge, we invite you to apply 06-12-2012 at the latest!

Notes

Required documents:

- Student Registration form (from your current education)
- Resume
- Cover Letter outlining your motivation and informing your availability

Please note that in order to be applicable for an internship, it should be compulsory (**for students outside EU/EER**) by your education and **you need to be registered as a student during the entire internship period**, formal documentation of which may be requested at any time.

Please note that the content of our regular internship assignments are not suitable for MBA students with professional work experience.
