

On behalf of our client, a leading Online Game Retailer in Berlin, we are currently accepting resumes for the following professional opportunity:

PS401F **JUNIOR BACK END RUBY ON RAILS DEVELOPER (BERLIN)**

An excellent opportunity has come up for Junior Ruby on Rails Developer with our client to expand their gaming ad-network into mobile advertising

YOUR RESPONSIBILITIES

- Work independently or in a team on the development of Ruby on Rails
- Develop intuitive and rewarding applications with a focus on quality
- Enrich our team with your expert knowledge

YOUR PROFILE

- At least 1-2 years of experience in web development or engineering or software development
- Practical experience in Ruby on Rails
- Good handling of database like MySQL or PostgreSQL
- Familiar with technologies like jQTouch, Webkit Transitions and jQuery
- Experience in Apache services like Haml, Hadoop, Hive or Hue
- Clear understanding of Git or Github, TDD and Kanban
- Ideally experience in Amazon Web Services like EC2, S3, ELB or Auto scaling and CloudFront
- Nice to have experience in front end development technologies like HTML5 or CSS3
- Knowledge in Continuous Integration System, Memcached and Nginx
- Independent and autonomous creative work
- Strong technical and problem solving skills
- Proficient in English

OUR OFFER

- Improve your working skills and thus your market value
- Benefit of working with entrepreneurs and top developers
 - Challenging and exciting tasks
 - Workplace in the heart of Berlin
 - Annual salary not disclosed
 - Full time and long term contract
